Subject – Letter of Recommendation

To: **The University of British Columbia,**

My name is Yishak Asefa, I am a Health Information Specialist in the organization called JSI (John Snow, Inc.) - Ethiopia. And proud to offer my recommendation of Mr. Daniel Alemayehu to whom I have personally known for more than 5 years as my Colleague.

During my relationship with Mr. Daniel, I have experienced an individual who shows up earlier than asked, works hard, and carries himself in a polite, respectable manner.

In our five years of working together, Mr. Daniel has shown great interest in continuing to learn more about health information systems and Information technology and also other departments. His drive for knowledge has made him a valuable member of our team.

On one occasion, our team encountered an obstacle with a software system problem. We did not offer the solution at that time, but Mr. Daniel spent his free time learning how to solve the problem. He worked tirelessly to perfect the software's so the client could implement it into their program with no issues. The result satisfied the software users, and we continue to offer those solutions for all of our clients. Without Daniel's dedication and quick learning capabilities, we wouldn't have been able to solve the problem.

Mr. Daniel is also a great team member and will help others as much as possible. He is a positive employee who enjoys challenging tasks that help him continue to learn.

I believe Mr. Daniel is a great candidate for your M.Sc. in Computer Science program. He has the dedication and drive to meet and exceed your high standards.

Please do not hesitate to contact me if you should require any further information.

Best,

HIS specialist – IT, JSI-Ethiopia
